	<p>Education Policy underlines the need for online and offline courses already included in the National Schemes. After all, instilling „skills? amongst students would be the aim of Higher Education. The skilled graduates are becoming a real asset to our nation. The student is made a free bird on the horizon of a multidisciplinary bachelor's degree with multiple exit options. This could happen only because of the provision of the Academic Bank of Credits (ABC).</p>
<p>3. Skill development:</p>	<p>To cater to the need of the day, the College lays special emphasis on Skill Development Courses. The institution organizes soft skill development courses/workshops/Seminars for the students which help to strengthen their vocational skills. To equip the students with basic career oriented skills and to facilitate better employment opportunities the institution organizes short term skill development courses. Besides, the Institution on its own runs self financing Short Term Skill Development and Professional Courses at a very affordable fee structure so that students can easily avail the benefits of such courses.</p>
<p>4. Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course):</p>	<p>The departments of Sanskrit ,Bengali and English offer courses based on different programs which deal with Indian Languages, Culture and Knowledge System . The college constantly encourages its faculty members to enhance their skills in these areas by attending Faculty Development Programme(FDP), Refresher courses, Seminars and Conferences. Workshops are arranged for the creation of awareness</p>

	<p>towards the importance of the Indian language and culture, like Yoga day, Art exhibitions, Sanskrit Day etc. in the college premises. All the departments take the initiative to prepare the Programme Outcome, Programme Specific Outcome, and Course Outcome and submit it to the Competent Authority for his approval prior to uploading the content in the College Website. The content of the Outcome is distinct and precise which makes it easily understandable by the</p>

	<p>students. The institute follows a system of academic audits to know the status of the Outcome-Based Education (OBE) implementation. Outcome-Based Education (OBE) is a student centric teaching-learning methodology in which the course delivery and assessment are planned to achieve stated objectives and outcomes. For uninterrupted teaching-learning, internal examinations, syllabus oriented student seminar, and viva voce are taken. In order to create the best teaching-learning environment for the students, the faculty constantly monitor whether the learning objectives and learning outcomes are being achieved or not and accordingly take necessary steps to ensure that all the students gain necessary expertise, knowledge, skills and capabilities.</p>
6. Distance education/online education:	<p>The college's teaching and learning process is conducted in a offline format, with constant monitoring and assessment to allow for prompt intervention to help students understand and overcome their weaknesses. Students at the institute continued to attend classes physically. Apart from offline teaching, all teachers nowadays use Google Classroom to effectively provide educational materials to their pupils. During pandemic situation the College organized online classes and teachers delivered their lectures in online mode by utilizing various online platforms to make the teaching-learning spirit alive among the teachers and students . As a corollary to the pandemic situation the faculty members took recourse to online teaching and did developed their skill to make the classroom teaching organized and more effective. The institute's CAGC (Career Guidance and placement Cell) is responsible for ensuring that all majors' students have access to high-quality career development programmes. This is because the affiliated university has not yet begun offering remote learning courses at the undergraduate level. However, the advent of online classrooms like Google Meet, Zoom, You Tube and similar platforms has given our traditional approach to education a whole new dimension. The introduction of online mode of education along with offline mode allowed students to upgrade their level of academic excellence keeping parity with other hubs of Higher Educational Institutions. As a result a new dimension in the arena of academic exercise has been evolved to cater to the need of the day.</p>

## 4. Quality Indicator Framework(QIF)

### Criterion 1 - Curricular Aspects

#### 1.1 Curricular Planning and Implementation

##### 1.1.1

**The Institution ensures effective curriculum planning and delivery through a well-planned and documented process including Academic calendar and conduct of continuous internal Assessment**

**Response:**

The college has been working on a very well-planned curriculum delivery system and at the beginning of academic session, the curriculum concerning the departments is discussed among the faculty members. Rabindrasadan Girls' College primarily provides regular undergraduate programmes in Arts and Commerce approved by Assam University, Silchar. It also offers self-financing Undergraduate (UG) courses and institutional certificate courses besides intermediate (10+2) courses in Arts and Commerce Streams under the Assam Higher Secondary Education Council (AHSEC). Senior faculties from some of the departments of the college are involved in curriculum planning and development, review of syllabus for UG courses as members of Board of Undergraduate Studies of Assam University. Planning for effective curriculum delivery in the college starts with the formation of a Routine Committee at the beginning of the academic session to prepare a time-table for classes ensuring proportionate distribution of class hours. Being affiliated to the Assam University, Silchar, the college follows the academic calendar of the university for teaching and examination schedules. The total curriculum is thereafter divided and allotted to the concerned teachers. On the basis of the allotted portion of the curriculum, concerned teachers chalk out teaching plans. Teaching plans are drawn out in such a way so that sufficient time for revision can be spared, besides completing the entire volume of the course. Fair and equitable distribution of topics/units of syllabus is done in the departmental meetings under supervision of the Head of the Department (HoD). The progress of curriculum delivery is discussed in departmental meetings and appropriate measures are taken as required. Considering that 75% attendance is mandatory, students' attendance records are well documented at departmental level and forwarded to the examination branch as per norms. Available ICT facilities and digital platforms are liberally used for effective delivery of classes. As classroom activities, students are engaged in group discussion/class tests/seminar etc. by the teachers concerned. In addition to the Central Library, all the departments have rich collections of textbooks and reference books which are available for use by the students. The institutional academic calendar committee prepares the academic calendar every year before the commencement of the academic session. The guidelines of the affiliating university and the UGC are followed in preparation of the academic calendar. The academic calendar encompasses the working days of an academic session, schedules of internal assessment and university examinations, holidays, vacation dates, festivals etc. Rabindrasadan Girls' College has a well-structured examination branch looking after the entire spectrum of examination and evaluation, strictly following the parent university protocols. As per university guidelines, unit tests or assignments are conducted in each semester. Evaluation is carried out in the college as per norms and the marks are uploaded in the university portal. Students can check their internal assessment score by logging into the university portal.

Feedback of the students is collected in each academic session to find out the positive and negative aspects regarding the effectiveness of the curriculum delivery by the teachers as well as of the institution

as a whole. Parent- teacher meets are also conducted for more effective curriculum delivery by taking suggestions and other aspects to develop a better environment for curriculum delivery.

Rabindrasadan Girls' College has adopted well planned student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. As an affiliated college, the institution follows the common curriculum, evaluation and assessment procedures designed by Assam University, Silchar for all its affiliated undergraduate colleges. However, keeping in mind the localized needs of the students, the college has adopted different pedagogical approaches to make learning more student centric. The college considers the students as its most important stakeholders and various efforts have been made to ensure their holistic development. Many of the courses require the students to undertake mandatory project work that enhances their knowledge and skill. Teachers encourage the students to participate in various competitions with a view to providing them with opportunities to get acquainted with various problem-solving methodologies. The college organizes various events like Student seminars conducted by all departments which help students acquire extensive knowledge of specific topics and also cultivate their communication skills. Guest speakers are regularly invited which offers students opportunities to listen and interact with eminent personalities and learn from them in various ways. Through group discussions, debates and various extensive activities, students are given an opportunity to articulate their thoughts on the spot and develop critical thinking and presentation skills. Thus, the teachers of our college keep themselves updated with the latest developments in information and communications technology (ICT) for effective use in the classroom. Students and teachers have major roles to play in order to build an effective teaching-learning environment. With technology and information growing by leaps and bounds, teachers and students need to upgrade themselves continuously to get equipped with the latest tools and techniques. The teachers of our college use various ICT tools like power point presentations, spreadsheets and animations for illustrating concepts to the students. Teachers make effective use of the two smart classrooms in the college in imparting ICT based learning to the students. Teachers resorted to alternative teaching during the covid-19 pandemic imparting live classes in Zoom, Google Meet etc., lecture videos on YouTube and posting study materials in Whatsapp groups, Google Classroom etc. The practice of using online platforms for offering extra classes to the students is also being continued thereafter. Teachers now continue such online teaching blended with classroom teaching. Rabindrasadan Girls' College is a constituent college of Assam University, Silchar. In respect of syllabi, examination and evaluation, the college is guided by the regulations formulated by the university. Rabindrasadan Girls' College ensures a transparent continuous internal evaluation process to assess the performance of students through unit tests, class attendance, assignments, and seminars etc. as per the regulations of the affiliating university. The Examination Cell of the college is given the responsibility to conduct the internal assessment and upload the marks in the university portal following the guidelines and schedule given in the academic calendar. The teachers in charge of the Examination Cell formulate the guidelines and routine for the internal examination in consultation with the Principal of the college. Teachers of the respective courses inform the students about the syllabi of the unit tests based on the topics covered in the classes. The college authority duly notifies the date and time of examination and the same is circulated through notice and uploaded in the college website. The class room lectures, assignments, and library facility also help the students to clarify their doubts and to perform well in examinations. In order to make the students aware of their short comings while writing their answers, the examinations and tests copies are shown to them. If any shortcomings are noticed after careful scrutiny, these are addressed through specific action plans in a scientific manner to augment the learning outcome of each and every student. Apart from academics, some students also perform well in co-curricular and extra-curricular activities at different level for which certificates of appreciation and participation are given to them.
